PROFESSIONAL SUMMARY

Dedicated developer with experience in creating software solutions. Actively enhancing skills through self-learning at Brototype. Proven problem-solving abilities. Eager to contribute expertise to dynamic projects and explore collaborative opportunities in coding..

SKILLS

Technical Skills

- Python (Advanced)
- Django
- React.js
- HTML
- CSS
- Django REST Framework
- API Development
- RDBMS (SQL)
- PostgreSQL
- MongoDB
- AWS EC2
- Django ORM
- React Hooks
- Redux
- firebase

HANDS ON EXPERIENCE

Python Django and React Intern Brototype Calicut | 2023 Feb – Present

Project 1: Real-time Chat Application

Developed a feature-rich chat application with private and group chat functionalities, multiple channels, and integrated video and voice call options.

Tech stack : Used Django Rest Framework, PostgreSQL, React, Django Channels, Web socket, and ZegoCloud for real-time communication.

Key Features:

- Implemented private and group chat functionalities.
- Created multiple channels for organized communication. Integrated video and voice call options to enhance user engagement.
- Utilized Dango Channels and Web socket for real-time chat functionality.
- Enabled video calls using ZegoCloud, showcasing proficiency in full-stack development and real-time communication solutions.
